THE REACH OF CHILDREN! Before using this product, it is essential that the label describing the product as well as the "Product Label" be reviewed. If your company does not have such information or has any questions, contact RAE

CAUTION: DANGER! EXTREMELY FLAMMABLE! VAPORS MAY CAUSE FLASH FIRE. VAPOR HARMFUL. HARMFUL OR FATAL IF SWALLOWED. INJURIOUS TO EYES. KEEP OUT OF REACH OF CHILDREN. BEFORE using this product, it is essential that the "Material Safety Data Sheet," describing the product as well as the "Product Label" be reviewed.

WARNING: Not for personal use. This product is intended for professional application only. All products should be thoroughly tested under application conditions prior to use. The information contained herein is believed to be reliable.

This product has been designed for painting centerlines, edgelines, curbs, highways, airport runways, medians, parking lots, crosswalks, traffic aisles, storage zones, stop zones, auxiliary markings, etc.

Use on concrete, asphalt, and brick. Exterior and Interior. Can be used with glass beads for added reflectance. Available in Yellow, White, Blue, Red, and Black.

Vehicle Type: Acrylic
Viscosity: 78 to 82 Ku
Weight Solids: 70.00% minimum
Volume Solids: 45.00% minimum
Density (Weight per Gallon): 12.84 ± 0.20 lbs/gal
VOC: 50 g/L
VOC (minus exempts): 87 g/L
Dry time: No-Pick-Up: <10 minutes
Dry Through: <15 minutes
Shelf Life: 12 months if unopened and stored in a cool area.

This product does not contain mercury, lead, hexavalent chromium, toluene, chlorinated solvents, hydrolysable chlorine derivatives, or carcinogens as defined in 29 CFR 1910.1200.

### Preparation

The surface to be painted must be dry, free of grease and oil and brushed free of loose dirt. Striping paints will not adhere to unclean surfaces. Application equipment must be clean from all previous paint(s).

### Thinning

Thinning is not required, and is not recommended. Dilution can adversely affect film build, appearance and adhesion. DO NOT add gasoline, oil or any other petroleum-based products.

### Drying Times

Dry times are dependent upon weather conditions. The warmer the temperature, the faster the paint will cure. Direct sunlight will speed up dry times. For this product, a basic drying schedule is:

- 10 min. (walk on), 40 min. (drive on)

**Note:** changes in weather conditions (ie. temp. dropping after application, cold surface temp.) can delay above cure times drastically.

### Safety Precautions

Always refer to the **MSDS** for Handling and Hazard conditions. Keep away from open flame. Avoid prolonged or repeated contact with skin. Avoid breathing of vapors or spray mist. Do not take internally. Close container after each use. Wear respirator, eye protection and protective clothing when handling.

### Application

Mix paint thoroughly before using. Surfaces should be clean and free from dirt and debris. New sealed or asphalt surfaces should be allowed to cure before application. Paint only in dry weather with no forecast for rain. May be applied by a spray machine, roller or brush.

**Application Rates:** Apply at 12-15 mils wet, 7.5 mils dry

**Coverage:**
- Approx. 400 linear ft./gal. with a 4" stripe
- Approx. 90 ft²/gallon (20 gal. = 1 mile @ 4")

Glass beads can be broadcast or mixed into paint at a rate of 4 - 6 pounds of beads per gallon. If spraying, do not mix beads directly into paint.

### Application Conditions

Recommended application conditions: Apply between 40°F minimum and 90°F and at least 5°F above dew point with a relative humidity below 85%. Best if applied at surface and ambient temperatures of 50°F and above.

### Application Equipment

**Spray Equipment:** Always purge spray equipment of cleaning solvent before using this product. Recommended cleaning solvent: Toluene or Acetone

**Airless Sprayers:** Use pressure between 1500-2000 psi - with tip size between .015" - 0.19"  (note: use the lowest pressure necessary to achieve a flat edge-line)

**Note:** It is recommended to keep separate sprayers for latex and solvent based paints. If the same spray machine is used for both types of paint extra care must be taken to avoid cross-contamination. Latex and solvent based paints are NOT COMPATIBLE.

**Brush:** Use Nylon/Polyester Natural Bristle

**Roller:** Use 3/8" Shed-resistant cover with phenolic core
