Line Striping Systems

GRACO RAE's New High Performance 1:1 Line Striper
for MMA & Epoxy Striping

RAE's Plural Component Modified Graco®
Line Striper and Roadzilla® Methyl
Methacrylate (MMA) combine for high-
performance line striping in an easy to
maneuver line striper.

Double Pump System

• The Two-pump Chromex Hydraulic pump system with separate flow control valves allows for easy 1:1 synchronization of parts A & B.

• Chromex Rods are four times harder than ordinary chrome.

Easy Out™ Filters

- Two separate manifolds with Easy Out™ Filters designed to filter from the inside out so filters won't get stuck or collapse.
- Filters remove with the cap for less mess.

Air Compressor System

- The uniquely designed air compressor houses the pump, air tank, and battery. The on/off switch is easily accessible from the Smart Control console.

This modified Graco® 1:1 Hydraulic Plural Component Sprayer is based on a Graco® 200HS Sprayer platform - professionally modified to spray two-component 1:1 MMA or epoxy paint materials.

This unit is NOT supplied by Graco® Inc.

Front Swivel Wheel

- Easy turning on all surfaces
- Locking feature for straight line control.

Dual Pall Carriage (2 x 5 gallon)

- Specially designed to accommodate plural component (part A, part B) MMA & Epoxies.
- A built-in compressor, tank, & battery is mounted under the carriage for pressuring the Binks pressure pot for instant clean out of gun head/tip.

Binks 43P Plural Component Gun

- Designed for internal mixing of medium viscosity plural component paints like MMA or Epoxy.
- Separate inlet & valve for fast solvent flush of the gun head and tip.
- Interchangeable Graco® RAC® 5 Spray Tips
